- Experience:** DrawingBoard Printing Waynesboro, PA  
**I.T. Manager / Web Developer** May 2007 to Present
- Manager of small team of programmers responsible for a PICK based business system (running on mvEnterprise on top of AIX). Design, program and debug applications. Part of the management team for DrawingBoard / Navitor East.
  - Lone in-house .NET programmer responsible for maintaining and enhancing two commercial web sites offering personalized printed materials and office products.
  - Plan, develop and test ASP.Net, VB.Net based desktop and web applications.
  - Utilize Visual Studio (2003 and 2005), SQL Server 2005, Dreamweaver, Visual Source Safe, Photoshop, JavaScript, and CSS, as well as PICK Basic.
- Norm Thompson Outfitters Kearneysville, WV  
**Sr. Programmer/Analyst** Apr 2006 to Apr 2007
- Member of Information Technology team, maintaining retail Distribution Center Warehouse Management System.
  - Planned, developed, and tested Oracle PL/SQL based applications, with HTML interfaces, to augment Warehouse Management System.
  - Designed solutions for multiple platform applications, utilizing ASP, JavaScript, HTML, VbScript, and Cascading Style Sheets, for data based applications with Oracle and SQL Server platforms.
  - Tools utilized include Visual Studio .Net, Oracle SQL Developer, T.O.A.D., Dreamweaver, and SQL Enterprise Manager.
- Brethren Mutual Insurance Hagerstown, MD  
**Programmer/Analyst III** Sep 2005 to Apr 2006
- Member of Web Development team, maintaining corporate Intranet and Internet web sites.
  - Member of Corporate Task Force for Web Site Enhancements, consisting of the Communications Director, the Vice President of Information Technology, two Regional Managers representing all insurance agencies, and myself.
  - Designed solutions for multiple lines of Insurance Business, utilizing ASP, JavaScript, HTML, VbScript, and Cascading Style Sheets, for data based applications with SQL Server and HP3000 back-end databases.
  - Tools utilized include Dreamweaver, and SQL Enterprise Manager.
- RABbitDev Corporation Waynesboro, PA  
**Owner / Consultant** Sep 1999 to Dec 2007
- Consulted with clients to identify current operating procedures and clarify program objectives.
  - Provided programming support for Warehouse Management, Accounting, and Inventory Control, and Online Ordering systems for two major clients.
  - Designed HTML based screen displays, forms, and reports to accomplish client goals for running their day-to-day operations.
  - Assisted clients in solving day-to-day operating problems.

**For client DrawingBoard Printing, Hagerstown, MD (since move to PA)**

- Utilized a variety of web development tools: Dreamweaver, Visual Studio .Net, Visual Source Safe, Photoshop, PaintShop Pro, and PICK.
- Programmed SQL Server based applications to include site search engine, product catalog, and shopping cart aspects, using ASP, VBScript, JavaScript, ASP.net, and VB.net. Utilized PICK to implement enhancements to Inventory Control Systems, and to develop an online Help System for Customer Service.

**For client Norm Thompson Outfitters, Kearneysville, WV:**

- Planned, developed, and tested Oracle PL/SQL based applications, with HTML interfaces, to augment Warehouse Management System.
- Wrote, designed and produced Physical Inventory suite, Labor Standards tracking modules, and various Sales and Inventory Tracking, and Shipping related programs.
- Maintained legacy UniData PICK applications of day-to-day operations during extensive evaluation and implementation of replacement software package.
- Spearheaded efforts to convert virtual warehouse locations and shipping destination determination from legacy PICK to Oracle based WMS.

**For web site design and hosting clients:**

- Designed web sites for commercial clients (dining, fuel oil sales, skating rink, wholesale and retail plant sales, flying organization, disc jockey) and non-profit organizations (cancer society auction, class reunion site).
- Designed web sites using ASP, VBScript, JavaScript, and ColdFusion.
- Created Access-based web applications to include membership, email and group directory functionality.
- Sold site hosting, email and ftp services.

Signal Corporation (Letterkenny Army Depot)

Chambersburg, PA

**Staff Analyst / Database Team Lead**

Jun 1998 to Sep 1999

- Senior Developer and Team Lead for development of PL/SQL scripts embedded in COBOL programs. Created "bridge" programs to replace data access from proprietary file system with relational database (Oracle).

Norm Thompson Outfitters

Kearneysville, WV

**Information Technology Manager**

Jun 1997 to Jun 1998

- Manager of small team of technical and UniData PICK programming staff, responsible for all aspects of technology and programming for the day-to-day operation of a 225,000 retail Distribution Center.

First Data Corporation

Hagerstown, MD

**Systems Analyst**

Jun 1996 to Jun 1997

- Analyst and programmer for Imaging applications within Chargebacks unit, utilizing COBOL on Wang VS, and Visual Basic for desktop applications.

The Stationery House, Inc. (now DrawingBoard Printing)

Hagerstown, MD

**Manager of Information Systems**

May 1985 to June 1996

- Manager of small staff of technical and PICK programming team responsible for all aspects of the data processing needs of a direct-mail printer.
- Planned and directed the search for, and implementation of, a PICK based turnkey direct-mail marketing package to replace COBOL applications.
